## PROFILE

DevOps (2yrs) and Fullstack (1.5 years) Experience. In Eth/web3 ecosystem since 2018. Solidity Bootcamp graduate. Work experience in DeFi, NFT Lending and SSI. Hackathon Enthusiast.

## SKILLS

- JavaScript (React, Node), TypeScript, Python
- Solidity, web3.js, ethers.js, HardHat
- AWS Cloud (EC2, ECS, Fargate, Lambda, Timestream, DynamoDB, S3, ...)

## EXPERIENCE

### JUNIOR CLOUD CONSULTANT

Jan 2024 - now

superluminar GmbH

- Enhancing the DevOps mindset while expanding expertise in AWS Cloud Services
- Proficiencies include IaC, Serverless, Lambda, EC2, ECS, Fargate, Kafka & MSK, CI/CD Pipelines, Github Actions, AWS CDK, and TypeScript
- Achieving Cloud Practitioner Certificate in March 2024, currently working towards the Solutions Architect Associate Certificate

### FULLSTACK DEVELOPER

Oct 2022 - Oct 2023

GoblinSax DAO (NFT Lending)

- Leading maintenance and development of system architecture, incl. feature additions and modifications to existing repos
- Authored + published npm SDK package (Node.js, TypeScript), facilitating interaction between multiple NFT Lending Protocols
- Streamlining shell scripts for optimised automation
- Developed proficiency with AWS (i.e. EC2, Lambda, Timestream, DynamoDB, S3 Buckets, ...)

## EDUCATION

### Encode.Club Solidity Bootcamp

2022

### B.Sc. Applied Computer Science

University of Applied Sciences,  
Hannover

Thesis: Beam Sync - Comparing  
Stateless Ethereum Syncing

2016 - 2020

## STRENGTHS

- Collaborative & Communicative
- Level headed + result driven, even in crisis situations
- Adaptable & endlessly curious
- Team Player

## HACKATHONS & CONFERENCES

### 2023

- DevConnect IST / EthGlobal Istanbul
- EthLisbon
- MACHN-Web3 Hackathon
- EthGlobal: Lisbon
- EthPorto

### 2022

- EthPrague (Winner)
- NFTBerlin (Winner)
- EthAmsterdam
- EthBarcelona

### 2021

- EthCC (Volunteer)
- EthLisbon
- EthLondon

### Pre-Pandemic

- EthLondon 2020
- EthCC & EthParis 2019
- EthBerlin Zwei 2019
- EthBerlin 2018
- Devon V Osaka (2019)
- Devcon IV Prague (2018)

## EXPERIENCE

### SOLIDITY BOOTCAMP

Sep + Oct 2022

encode.club

- 2 month program
- developing deep and practical experience with Solidity

### PRODUCT MANAGER

June - Sep 2022

General Magic: Token Engineering Academy

- Managing external client project (TEA), ensuring the platform is built according to client specification and expectations, especially in regards to soulbound NFT certificate creation
- Handling product backlog, prioritising tasks, influencing architecture decisions, facilitate communication between internal teams, as well as external communication
- Administrative tasks (invoicing, resource management)

### PRODUCT MANAGER

Jan - May 2022

ovix

- Product manager for DeFi platform on the Polygon Network
- Coordinated team efforts between fullstack, smart contract and frontend developers, as well as designers
- Assumed various administrative responsibilities, like project planning, roadmap creation, recruitment and hiring of auditor, product feedback evaluation

### PRODUCT OWNER (TIB)

Dec 2020 - Oct 2021

TIB - German National Library of Science and Technology

- Horizon2020 funded Research Project at Technische Informationsbibliothek Germany: building a PoC for Scientific Conference Digital Identifiers, which combined aspects of SSI and Blockchain
- solely responsible for managing, organizing and executing the project
